WHC is a business management and technology consulting firm serving municipalities, growing companies and non-profit organizations.

Our Mission:

To create opportunity for growth for municipalities, emerging companies and non-profit organizations, and positively change the economy by providing affordable technology, strategy and development solutions.

Our Core Services:

- New Technology Adoption
- Business Operations Strategy
- Emerging Entity and Organizational Development

Our Experience:

Our team of subject matter experts have developed business operations and technology solutions that have helped growing organizations create structure and consistency, add staff, increase revenue, implement new technology and improve services. This type of growth helps to increase the number of local jobs, strengthen the local tax base and improve the overall economy.

WHC's work has been recognized by the Mayor's Office of Baltimore and The Greater Baltimore Leadership Association. In our effort to strengthen the economy through better entrepreneurship, we have partnered with various groups such as The U.S. Small Business Administration, the Mayor's Office of Employment Development, Howard County Schools, Baltimore City Schools, Towson University and Baltimore Professionals and Entrepreneurs to provide training and tried and true solutions to aspiring entrepreneurs.
